

YOUR RELIABLE PARTNER

Scaffolding Services

HOW WE SUPPORT YOUR BUSINESS

Our highly skilled team of design engineers, project managers, safety officers and scaffold experts can confidently take on any job on any site. This mix of talent ensures a comprehensive access solution that is scalable for any type of project. CR Asia devote a great deal of time to the pre-planning phase to ensure the scaffold will be built most effectively, considering the structure itself and the different trades that will be impacted by the construction. We build quality scaffold efficiently managed and on schedule.

Access Solutions for any Application or Project

Exceptional Service

As the leading one-stop provider of specialized maintenance and industrial services, we are able to support your projects from start to finish by having expert staff onsite throughout the entire process. Our approach spans every stage, from pre-planning and execution right up until the plant is reactivated or your project is complete, and all scaffolding has been removed.

Our Process

- Thorough On-Site Evaluation of Project Requirements
- Determine Scope of Work and Usage requirements
- Determine Load Requirements
- Engineering designs as needed
- Develop Competitive Market Pricing
- Deliver and Install Scaffolding
- Build According to BS/EN Standards with a Quality Product
- Scaffold Inspected and Green Tagged for Use
- Subsequent inspection and care
- Removal upon completion of the project

Industry Leader in Safety

CR Asia's unique culture driven by the safety and wellbeing of our people differentiates us from everyone else.

Our people always put safety first. We continually invest in state-of-the-art training and equipment, while our Zero Harm, Behavioral Change and Stop Work Campaigns continue to deliver significant improvements into workplace safety.

Your Business Benefits

Benefit from a one-stop solution – by partnering with a major Maintenance and Industrial Services company offering a full range of services that can be seamlessly integrated as multi-discipline packages for any refurbishment, project, shutdown or maintenance contract.

Maintain high safety standards – by choosing a partner with a proven commitment to ensuring a safer workplace, both onshore and offshore, for all of your project requirements under the toughest of conditions.

Save time and money – with an experienced maintenance and projects expert that can support your operations throughout all phases of your project lifecycle.

The CR Asia Difference

CR Asia's large in-house team of highly trained technicians is subject to regular audits and a stringent safety passport scheme. We invest heavily in the latest equipment and SMART systems to maintain our reputation as the region's leading one-stop provider of specialised maintenance services.

CR ASIA – YOUR RELIABLE PARTNER

CR Asia is the leading provider of highly specialised pre-commissioning and maintenance services to the Oil, Gas, Chemical, Power and other heavy industries throughout Asia. As your reliable partner, we provide the safest and most efficient solutions to the maintenance, repair and overhaul challenges facing your business. **To learn more, visit www.crasia.net**

Your Reliable Partner

Asia's leading one-stop provider of specialised maintenance services

CR Asia supports your business with extensive contracting experience in the delivery of catered service packages, 'blind to blind' jobs and turnkey maintenance services during major shutdowns and turnarounds. Our business upholds a culture and track record of integrated management systems that are certified to multiple international standards.

Our Services

We offer a comprehensive portfolio of maintenance services that are grouped into five business lines. Our experts deliver these services – onshore and offshore – on time and on budget.

Our complete 'blind to blind' solution ensures more streamlined and efficient projects, as we maintain direct, single-source control of all critical path elements. We cater to projects of widely varying scope and complexity, and have the capacity to deliver multiple shutdowns concurrently.
